Mumbai, India

## SUMMARY

Full Stack Developer with 1+ year of experience at TCS, skilled in building scalable microservices and high-availability systems using Spring Boot, React, and cloud technologies. Strong problem-solving background with 500+ coding problems solved. Passionate about designing efficient, low-latency software and solving complex challenges through clean and optimized code.

## WORK EXPERIENCE

### Tata Consultancy Services (TCS)

June 2024 – Present

Software Developer – Payment Portal Team — Mumbai, India

- Migrated traditional payment methods into scalable **microservices**, handling **high-volume transactions** securely.
- Built a **cloud configuration server** improving service reliability and enabling faster scaling.
- Automated **security and compliance checks** with Fortify scans and improved deployment cycles via **Azure Kubernetes & CI/CD pipelines**.
- Improved response time and optimized API throughput, ensuring high availability for customer-facing services.

### Tata Consultancy Services (TCS)

Aug 2024 – May 2024

Software Developer – CR Team — Mumbai, India

- Resolved cross-domain Change Requests, optimizing services for better performance and reducing defects.
- Developed and maintained **REST APIs**, wrote unit tests (JUnit/Mockito), and contributed in Agile sprints.

## PROJECTS

### NexTalk (2023)

 GitHub

Developed a social platform enabling users to **share posts, images, and videos**. Integrated **real-time messaging** with WebSockets for instant communication and a **bookmark feature** to improve user engagement. Implemented secure authentication and optimized database queries, improving response time by **30%**.

### Inventory Management System

 GitHub

Full-stack system using **React + Spring Boot** for managing inventory. Implemented **stock management, role-based access control, and sales reports**. Designed an analytics dashboard to provide real-time business insights. Integrated with **MySQL** for persistent data storage and implemented **REST APIs** for smooth communication between frontend and backend.

## SKILLS

Languages: C, C++, Java, JavaScript

Frameworks/Tech: Spring Boot, React.js, Node.js, MongoDB, JUnit, Linux

Cloud/DevOps: AWS (EC2, S3), Azure Kubernetes, CI/CD, Git, GitHub, Postman

Web: HTML5, CSS3, JSON, XML

## ACHIEVEMENTS

- Consistently active in LeetCode & CodeChef contests, strengthening algorithms and problem-solving skills aligned with Amazon's bar-raiser standards.
- Secured **4th rank** in TCS Global ESU Hackathon among worldwide participants.
- Active participant in coding contests, hackathons, and technical events.

## PROFILES

 LeetCode |  CodeChef |  GeeksforGeeks

## EDUCATION

2020 – 2024	B.E. Computer Engineering, <b>Shree L.R. Tiwari College of Engineering</b> , Mumbai	9.38 CGPA
2018 – 2020	HSC (Science), <b>Bhavan's College</b> , Mumbai	79.38%
